

cosmopak

2023 introductory overview

From concept to market,
we help beauty, wellness
and lifestyle brands
create products their
consumers will love.

our solutions

1. turnkey

full service formula & packaging

Our end-to-end turnkey service covers every step of your product development journey, including design, sourcing, testing and manufacturing.

2. packaging

stock molds & custom tooling

We design, engineer and manufacture tailor-made primary and secondary packaging incorporating the latest innovations and sustainable solutions.

3. accessories

promotional & branded merchandise

From customized bags and boxes to accessories, ribbons and everything in between, we create stunning products to enhance your brand.

our services

concepting

From art direction to design and formulation, our knowledgeable in-house team of beauty experts will collaborate with your team to perfect concepts from start to finish.

design

Using a variety of methods like 3D renderings, drawings, sketches, trend presentations and more, we collaborate with you to design eye-catching products and custom packaging.

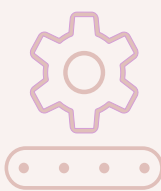

product development

Striking the perfect balance between formulation, sustainability and packaging, our engineering, development and design teams collaborate to ensure everything goes right.

formulation

We only work with the best cosmetic labs, both domestically and globally and stay at the forefront of trends. We can enhance your existing formula, or develop exciting new options for your brand.

production

Leveraging our expansive network of long-standing supplier partners, we have manufacturing capabilities all over the world. Whether domestic or global, we keep you on time and within budget.

logistics

We help you avoid logistical nightmares and costly mistakes. From raw materials to bottom labels, we coordinate everything for you and track all the moving parts.

speed to market

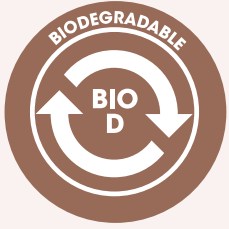

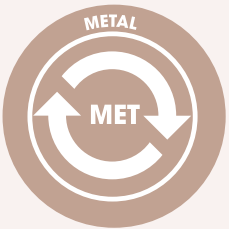

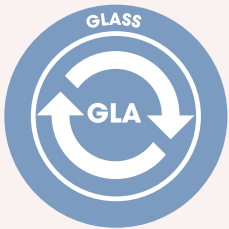

We believe that sustainability is
a moral and business imperative.

We will continue to help revolutionize the beauty industry by offering
the latest sustainable and eco-friendly innovations.

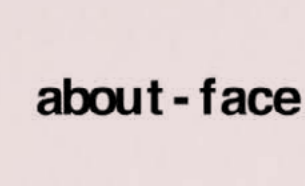

sustainable solutions

We offer diverse solutions to help you achieve your sustainability goals.

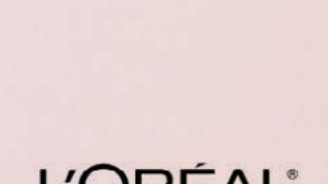

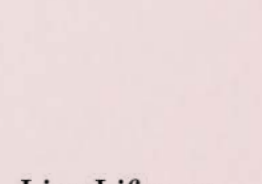

Considering your product type, where you sell, and your company sustainability goals, cosmopak provides three main avenues to assist: **material type**, **sustainable objective** and **offset programs**. Our team will guide you through each solution and expand on the differences and benefits for each approach.
